SINGLE SP SWITCHSOCKET  
SINGLE SP SWITCHSOCKET 15A  
M115(115x115mm)

\* Product image may be indicative

DIRECTIVE RoHS 2011/65/EU

**■ GENERAL CHARACTERISTICS**

|                         |                        |
|-------------------------|------------------------|
| Commercial Series       | PROTECTA Series        |
| Synthetical description | SINGLE SP SWITCHSOCKET |
| Type                    | BRITISH BS546          |
| Mounting version        | SURFACE MOUNTING       |

**■ TECHNICAL CHARACTERISTICS**

|               |      |
|---------------|------|
| Rated current | 15A  |
| Rated voltage | 250V |

**■ PHYSICAL CHARACTERISTICS**

|                      |                  |
|----------------------|------------------|
| Mounting version     | SURFACE MOUNTING |
| Protection degree    | Splash proof     |
| Protection degree IP | IP66             |
| Material             | THERMOPLASTIC    |
| Halogen free         | HALOGEN FREE     |
| Working temperature  | -20°C/+60°C      |
| Protection degree IK | IK07             |

**■ DIMENSIONAL CHARACTERISTICS**

|            |                 |
|------------|-----------------|
| Dimensions | M115(115x115mm) |
|------------|-----------------|
